#### GUARANTEE

This kitten is guaranteed to be of sound health upon arrival. The kitten must be kept in quarantine, away from other animals, until examined by the buyer's veterinarian. It is recommended to wait until the kitten is comfortable with you before taking it into the vet (about a week). A general health examination including fecal testing is suggested. Buyer agrees to quarantine kitten for minimum of (2) weeks. If Buyer exposes this kitten to other animals prior to the two-week period all warranties made by Skyview Savannah are null and void.

The kitten is guaranteed against life-threatening congenital and hereditary defects up to one year of age. If the kitten is found to be medically deficient the Seller must be notified during the one-year warranty period. Written veterinary records must be provided to Seller. Upon Seller's satisfaction that the kitten has a congenital defect and/ or genetic disease, Buyer has the following options: (a) The kitten may be returned to Seller and Buyer may obtain a replacement kitten of equal quality. Buyer agrees to pay for the return shipment and to pay replacement shipment of the kitten under this circumstance; or (b) The kitten can be retained by Buyer and Seller shall issue a refund to Buyer in an amount equivalent to fifty (50%) percent of the purchase price already tendered (which was half the kitten purchase price, not including breeding right purchase). Any vet fees and transport costs shall be paid for by the Buyer.

All warranties are void if Buyer gives the kitten the FIP vaccination (Coronavirus). The FIP vaccine has been shown to have adverse side effects and is not recommended. Additionally, if other cats reside at Buyer's address and have not been recently tested negative for Coronavirus (FIP), FeLV &/or FIV, Seller cannot be held responsible for kitten/cat developing any or all of these infectious

diseases.

Due to environmental factors out of the sellers control the purchase price of the kitten will not be refunded due to behavioral issues. The seller agrees to do their best to help in any situation.

If purchased as a breeder this kitten is guaranteed to produce viable eggs. If the cat has not been able to produce/ conceive kittens by two years of age and has been bred with more than one proven producer in an appropriate manner conducive to breeding cats, seller will replace the cat with a cat of equal value upon veterinary verification of congenital sterility. Fertility loss due to disease mismanagement or pyometria is not guaranteed. If after two years the cat is veterinary certified to be fertile, but has not produced/conceived kittens the seller will provide a replacement kitten at pet price if the purchaser chooses.

In the event that Buyer fails to pay in full for the kitten, this Agreement is null and void. In addition, Buyer shall pay to Seller a fee in the amount of \$ (deposit) representing lost opportunity cost due to Seller in the event the kitten must be resold to another Buyer. The remaining amount owed is due two-weeks prior to pick up or shipment.

This contract is legally binding to all parties involved. It applies to the buyer and seller in this transaction and is non-transferable to other parties.
